Project No. R2015-00052-(1) – Conditional Use Permit No. 201500002 - RPC
Meeting: October 28, 2015 - Agenda Item: 6

The above-mentioned item is a request to construct, operate, and maintain a new wireless telecommunication facility located on an existing Southern California Edison utility pole in the public right-of-way. The project was originally approved by the County Hearing Officer on May 19, 2015 and was subsequently appealed by a member of the public on June 2, 2015. At your hearing on August 26, 2015, your Commission requested that the applicant conduct a community meeting to discuss the project and explore if alternate locations were possible. Also, as the posted hearing notice was removed from the project site, the matter was continued to today's date.

The applicant has held a community meeting. However, due to confusion regarding the hearing notice, the project was not posted in time for today's meeting. Staff, therefore, requests a continuance so that the applicant can satisfy the posting requirements to December 9, 2015.

If you need further information, please contact Anthony Curzi at (213) 974-6443 or acurzi@planning.lacounty.gov. Department office hours are Monday through Thursday from 7:00 a.m. to 6:00 p.m. The Department is closed on Fridays.

SUGGESTED MOTION:

I MOVE THAT THE REGIONAL PLANNING COMMISSION CONTINUE THE PUBLIC HEARING TO DECEMBER 9, 2015.
